

BACKGROUND

Collaboration of Osijek scholars with colleagues from Wakayama (Japan) began with a study visit by Vedran Mesarić, member of the Panon Institute in Japan in 2015. At the end of 2016, prof. Arata Uemura stayed in Osijek and held a lecture at the Croatian Chamber of Economy on Employment Policy in Japan. Next year, Wakayama University hosted the first scientific conference of Croatian and Japanese scientists on the topic of "Education and Training as Basis for Future Employment" – after which a document on cooperation between Wakayama University and Osijek University was also signed.

The second conference of Croatian and Japanese scientists is held this year in Vinkovci and Osijek on topic of Sustainable Development Today - Interaction of science and economy in Japan and Croatia.

PURPOSE OF CONFERENCE

Analysis of models and examples of good practice of interaction between science and economics in Japan and Croatia contributing to achieving sustainable development today.

These professional and scientific contributions should provide frameworks for future cooperation between scientific institutions and business entities from both countries.

SCIENTIFIC COMMITTEE

- Dr. sc. Milan Ivanović – Chairman
Panon institut, Osijek
- Dr. sc. Ivan Ambroš
Competence Centre Ltd. Vinkovci
- Prof. dr. sc. Damir Blažević
Faculty of Electrical Engineering & mb of Panon institut
- Dr. sc. Tomislav Bogdanović
Nature park Kopački rit
- Prof. dr. sc. Hrvoje Glavaš
Faculty of Electrical Engineering & mb of Panon institut
- Prof. dr. sc. Masaaki Iwanaga
Faculty of Law, Kyoto Sangyo University
- Doc. dr. sc. Tomislav Keser
Faculty of Electrical Engineering & mb of Panon institut
- Prof. dr. sc. Kota Kitagawa
